Docket No.RM2020-13

PUBLIC REPRESENTATIVE FILING OF ERRATUM2

(November 30, 2020)

The Public Representative hereby gives notice of filing an erratum to his Revised Comments, filed November 25, 2020. This will be the second errata for this testimony.

**Erratum**

The Public Representative hereby requests permission to file an erratum to his Comments filed November 25, 2020. He discovered a missing column in an excel spreadsheet, reran all programs in RM2020-13-PR-LR-1, and obtained slightly different results. He repopulated affected spreadsheets. This resulted in very minor modifications in several numbers in his testimony. All points originally made remain unchanged.

Because changes have been *de minimus*, he believes this second errata will not adversely affect other participants.
